Lead with Care

For an update on COVID-19 as well as Four Seasons enhanced global health and safety program, **Lead With Care**, [click here](#).

Upon arrival, there will be a screening procedure that may include temperature checking as well as a series of questions regarding health and recent travel. Our employees will be wearing masks.

In accordance with the advice of medical experts, all guests at our hotels and resorts globally (age 10 and above) will be required to wear a mask or face covering when in public indoor spaces on property and when receiving service while in their guest room. Masks are strongly recommended for children age 2-9 years old. In some jurisdictions, additional or more stringent regulations on mask usage are mandated and must therefore apply. Our hotels adhere to the more stringent requirement. As global vaccine programs continue to move forward, all of the above Four Seasons health and safety policies remain in place until further notice.

Whether as a departure requirement or simply for peace of mind, all Four Seasons properties globally can facilitate access to COVID-19 testing for guests. In most cases, COVID-19 testing can be arranged on-property, with a third party, to ensure a convenient experience. In some markets, availability and regulations prevent on-property testing; in these instances, Four Seasons can facilitate off-site testing for guests. Importantly, all **Lead With Care** preventative measures, including Four Seasons Global Guest Mask Policy, remain in place without exception even if a guest can show proof of a recent negative test or complete vaccination.
